

Exclusive Surfaces

CABANA

structural veneer with antique look

With CABANA structural veneer you create impressive interiors with rustic charm.

Due to the special processing of the veneer, the surface is conspicuously structured, which creates a noble antique wooden character with a high quality feel.

The coarse wood grain in the veneer surfaces and the partly open knotholes, lend this antique wood surface the typical rustic style.

Colors
smoked oak, light oak,
cognac oak, grey oak

Sizes (length x width)
