

VINTERO

Concrete & Rust

for Furniture & Interior

With **VINTERO** architectural surfaces you get not only an absolute surface trends, but also an exciting solution for impressive furniture and interior design, anywhere where Industriestyle is needed.

Suitable for:

- Furniture fronts
- Wall coverings
- Tabletops
- Shop equipment
- Splashbacks
- Decorative elements

Areas of application:

- Fairs
- Contract
- Shop fitting
- Interior design
- Hospitality
- Shop & retail

VINTERO surfaces are manufactured with the utmost care in part of handmade work.

By the lively various structures and changing play of colours with the concrete, rust and metal surfaces, becomes every surface a unique.

VINTERO decorative surfaces are available as MDF composite panel and on HPL core.

For very small radii, **VINTERO** surfaces are also available with vleece on back side.

The surface consists of an acrylic resin-bonded mineral material. The panels can be processed with normal carpenter's tools, also with CNC technology (drilling, sawing, milling, grooving).

For each **VINTERO** surface and color are edge banding machine capable edges of the same surface material available.

VG-1010 Concrete smooth light

VG-1011 Concrete smooth medium

VG-1012 Concrete smooth dark

VB-1112 Concrete formwork dark

VR-1316 Rust smooth

VR-1317 Rust Waffle

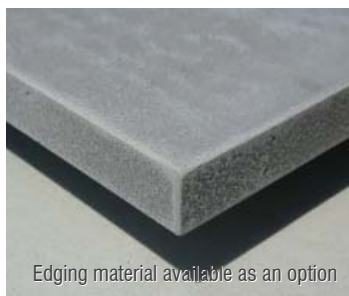

VE-1213 Metal-Effect black/silver

VE-1214 Metal-Effect rust/silver

VE-1215 Metal-Effect black/gold

Edging material available as an option

VG-1011 Concrete smooth, medium - with scratch-resistant **PRO** Surface

VR-1316 Rust smooth - with scratch-resistant **PRO** Surface

VE-1213 Metal-Effect black/silver

- Colors: VG-1010 Concrete smooth light
VG-1011 Concrete smooth medium
VG-1012 Concrete smooth dark
VB-1112 Concrete formwork dark
VR-1316 Rust smooth
VR-1317 Rust Waffle
VE-1213 Metal-Effect black/silver
VE-1214 Metal-Effect rust/silver
VE-1215 Metal-Effect black/gold
- Sizes: 2.800 x 1.000 mm (on MDF)
